**PRODUCT : PRO-Tech Seal & Bond remover**

## Description

*PRO-Tech Seal & Bond remover is a premium product for softening and removing many adhesives and sealants. Even silicone residues are no problem at all. Ideal for degreasing surfaces before proceeding with further work. The product does not affect most types of paint and plastic and evaporates without leaving residues.*

## Applications

Various sealant residues  
Glued car windows

Chewing gum residue  
Adhesive and bitumen residue

## Product references

Sealant and adhesive remover  
Easy application  
Ideal for degreasing surfaces  
Does not affect most types of paint and plastic  
Removes unhardened PU residue and chewing gum  
Directed spray pattern  
360° valve

## Physical and Chemical Properties

Contents	:	500 ML
Base	:	Mix of aliphatic, aromatic hydrocarbons and alcohols
Appearance	:	Clear colourless liquid
Propellant	:	CO <sub>2</sub>
VOC-CH %	:	98%
VOC-EU g/l	:	774 g/l
Specific gravity (g/ml 20°C)	:	0.794
Vapour pressure at 20°C	:	5.2-5.8 bar
Spraying flow rate	:	3.4 g/sec

## Instructions for use

Before use, carefully read the instructions on the packaging and act accordingly.

Shake aerosol can well before use. The ideal processing temperature is 5 to 30°C. Apply on a clean, dry cloth and treat the surface. Leave on for a few minutes and subsequently remove the residue. Repeat the treatment if required, especially for thick, tough layers of adhesive. Cover painted and plastic parts. Always test first!
